Vehicles D6 / Eldar Vyper Jetbike

Eldar Vyper Jetbike

The Vyper is a highly mobile weapon platform based on an enlarged Jetbike design. It carries two Eldar, a pilot and a gunner. The pilot and gunner are generally trained together and very rarely will a single member of the crew be changed. The pilot and gunner are almost always blood relatives. The Vyper is capable of carrying a wide variety of Eldar heavy weapons. Although lightly armoured, the impressive speed and maneuverability of the Vyper is almost a superior defense. Vypers are often fielded in squadrons of up to three vehicles.
