Temere Corporation Gattaca Class Androids

Temere Corporatio's Gattaca Class Androids are based off the old Human Replica Droid concept. Sensor fooling bio-circutry
makes them scan up as humans, while their exterior looks and feels just like any human. Advanced cybernetics and comptuer
processing incoporated with bio-technology has created these droids which appear as humans with icnredible speed, agility,
and strength. The secrative Temere Corporaiton's intentions for the androids is as yet unknown but something sinister is
suspected.
