Description: The Diskus Star Transport is a small but solid transport vessel which has gained none of the fame of the YT series of space transports. The Diskus is fast straight from the factory floor, which makes it popular with smugglers and pirates, a fact which has tarnished the reputation of this vessel, making customs searches more common on these vessels than any other. However an honest legal trader will find that the ample cargo space, fast drives and plenty of space for modifications are a real asset, making it a real shame that this vessel hasn't sold in greater numbers.
