

Type:

Galactech Blue Four Loader Droid

Dexterity: 1D

Knowledge: 2D

Mechanical: 2D

Perception: 2D

Strength: 4D

Lifting 8D

Technical: 2D

Equipped with:

Humanoid Body (two arms, two legs, head)

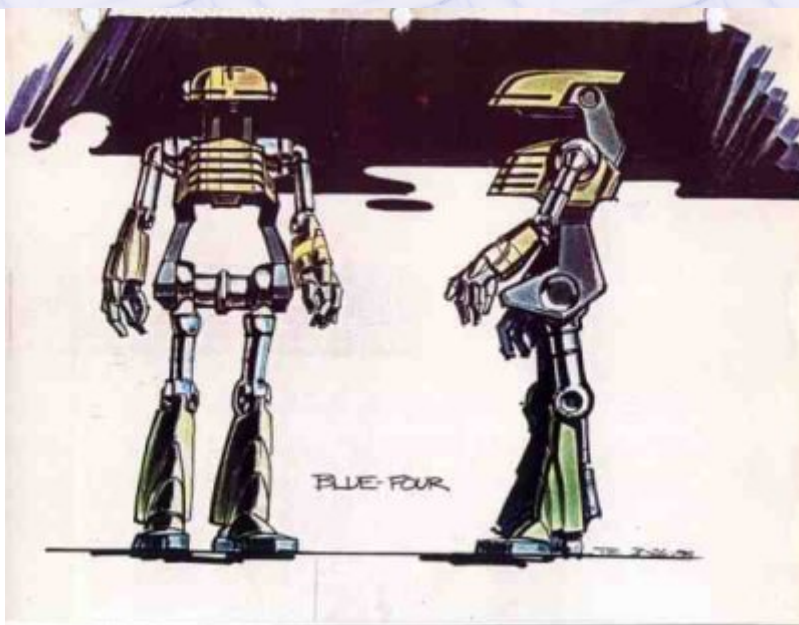

Two visual and two auditory sensors - human range

Rudimentary Vocabulator speech system

Move: 7

Size: 1.8 meters tall

Cost: 700 (used)

Description: The Blue Four Loader Droid was designed to load and move cargo in docking facilities and bulk freighters, freeing up larger load lifters and repulsorlift transporters for heavier cargo. Although not as efficient as later loader droids, the low price kept the droid in production for many years. Blue Fours have quite advance logic matrices for a Loader Droid, and owners have found them capable of many tasks beyond those of a simple loader droid, and a number of modified Blue Fours are used as simplistic maintenance droids, and crew droids for free traders and smugglers.
