- Passive: 50/1D
- Scan: 200/2D
- Search: 1000/3D
- Focus: 5/4D

Assigned Craft:
- 10 Hangar Bays capable of docking vessels up to 100m
- Multiple External Docking Ports

Description: The Vanguard Axis station was a space station orbiting a planet with at least one moon. The criminal organization Vanguard Axis had a base of operations there, whose activities included the trafficking of slaves, such as the Padawan Wookiee Gungi. The station was concentric and featured two large city-like sprawling towers, one of which was topped with a communications mast. The sides of the station featured multiple hangars.
