Starships D6 / Romefeller Foundation Leo-cla

Leo Mobile Suite
The Leo Mobile Suite is the most widely produced Mobile Suit ever (over 25000 are in circulation). The first real all-purpose mobile suit, it is reasonably manueverable, and can be armed with numerous weapons. Excellent against starfighters and light ships, it may be outclassed against more advanced MS like the Taurus class or the Aries class. It is also not very survivable in the face of heavy ship attacks.
