Special Abilities:

Burrowing: Pucksy can dig through soil at double their normal movement allowance, passing through dirt and soil at a high speed. While they will leave disturbance in the soil, they do not leave tunnels.

Move: 8
Orneriness: 2D

Description: A pucksy was a type of animal that loved to dig and was capable of purring. The species could be found on the Outer Rim planet Tenoo. When the Poobian Jedi Initiate Nubs, along with Twi'lek Tenoo residents Locc and Jor, became trapped in a cave after a Tenoo tree fell across its mouth, the burrowing behaviors of a pucksy inspired Jedi Initiate Lys Solay to use Raxlo's harvester to drill under the impenetrable tree to save them.
