Special Abilities

Peck and Headbutt: Nekkos are generally peaceful, but capable of defending themselves with their beak and by running into targets with their head, these attacks do Str+1D damage.

Sprint: Nekko are capable of making a sprint for double their normal move, but this only lasts for one round.

Move: 16
Orneriness: 1D

Description: Nekkos were bipedal avians resided on the planet Koboh's Southern Reach. Their feathers came in many variants, shades, and colors.

Behavior

Nekkos were intelligent, sociable, and easily domesticated. They could also serve as mounts for inhabitants of Rambler's Reach Outpost.

Nekkos mated for life, and their courtship rituals were exhaustive and time-consuming. Male nekkos were known to create 'signatures' by clawing elaborate designs into the mud, in order to attract a mate.
