Charcter Bio - Kol Skywalker was a Jedi Master and head of the Jedi Council. Descended from the famous Luke Skywalker, he grew to be a powerful and respected Jedi. A mission alongside Imperial agent Morrigan Corde led to love and the birth of a son, Cade Skywalker. Skywalker raised Cade on his own after Corde left to continue her Imperial career and he eventually entrusted Cade to the care of his former Padawan, Wolf Sazen, as an apprentice. Kol Skywalker took on his own apprentice yet again in Shado Vao.

Skywalker spearheaded the Ossus Project, designed to rehabilitate the Yuuzhan Vong's public image by having them restore war-torn worlds, but the biotechnological experiment was sabotaged, provoking war in 127 ABY between the Fel Empire?joined by the One Sith?and the Galactic Alliance and Jedi with them. When the Galactic Alliance surrendered three years later, Skywalker refused to serve the Empire and withdrew to Ossus, where the Sith followed and attacked the academy there. In a one-man last stand, Skywalker held off the hordes of Sith, giving his own life to buy enough time for the Jedi younglings, his son, and Vao and Sazen to escape. After his death, Skywalker continued to appear to his son as a Force ghost, exhorting Cade to reject the dark side and live up to his heritage.

A descendant of the legendary Jedi Grand Master Luke Skywalker, Kol Skywalker was raised as a Jedi and trained to wield the Force. Along with his older brother Nat, he served as a Jedi Knight. When the Jedi Council of Seers saw Skywalker's importance to a mission with Imperial Intelligence agent Morrigan Corde, he was assigned to it. Serving with her, he fell in love. Though he knew that Corde's loyalties ultimately lay with the Empire, he understood and loved her nevertheless. They had a relationship for as long as two years, marrying secretly, before Corde gave birth to a son named Cade.

Skywalker took Cade to the Jedi Academy on Ossus, where Cade was introduced to other Jedi, including Nat Skywalker, but Corde's identity was kept largely secret. Skywalker, a family-minded man, wished Corde to remain on Ossus where they could live together as a family. Corde, unprepared to be a mother and soon summoned back into service, departed despite Skywalker's pleas to stay with him and their son. Skywalker, brokenhearted, was left to raise Cade alone. When he had business on Coruscant, he frequently left Cade with Nat, but as Cade grew older Skywalker took the boy to the Jedi Temple on Coruscant with him. Corde went on to become the Director of Imperial Intelligence and a member of the Moff Council under the name Nyna Calixte. As Calixte, she was involved with naval officer Rulf Yage, bearing him a daughter, and then Grand Admiral and High Moff Morlish Veed.

A talented Jedi and natural leader skilled in the Force, Skywalker became a member of the Jedi Council and soon ascended to the status of its leader. Though he accepted this role, Skywalker disliked politics and formality; as time went on he preferred to spend most of his time as a trainer on Ossus, where he provided tactical training to the Jedi students from his own considerable expertise.

Skywalker had an apprentice, Wolf Sazen. He trained the Zabrak Padawan to Knighthood; Sazen eventually achieved Mastery himself and took Skywalker's son Cade as his own apprentice. Afterward, Skywalker took the Twi'lek Shado Vao, a friend of Cade's, as his Padawan learner, training Vao to a mastery of the lightsaber. With Sazen now his peer, the two became close friends as well as master and student.

Kol Skywalker was a man of honor and driven to serve justice. Though a natural leader, he had little love for politics and preferred the more relaxed atmosphere of Ossus to the stuffier Jedi Temple on Coruscant. He firmly believed in the Living Force, a trait he passed on to his apprentice Sazen. Skywalker valued family and was proud of his Skywalker heritage, wanting himself and his son to live up to their ancestors' names. He was disappointed that Calixte would not speak with Cade after she abandoned the family, but he still loved her and protected her secret identity.

Kol Skywalker was a talented Jedi, demonstrating skill with and understanding in the Force that made him a standout among the Jedi. He was skilled in battle, having an aptitude for tactics as well as personal combat; Nei Rin considered him the Jedi's greatest warrior. Skywalker was skilled

enough in the use of the lightsaber to train Shado Vao to an extremely high degree of competency and was able to use the two-lightsaber Jar'kai style with proficiency when pressed. In the Massacre at Ossus, he killed at least seven Sith and numerous stormtroopers, holding off even more, before being overcome and dying on a pile of those he had slain. In his final battle, Skywalker demonstrated skill in telekinesis but also displayed an inability to counter Darth Nihl's Force lightning.

Though his body lingered after death, it disappeared while being cremated. Skywalker indeed became one with the Force while retaining his identity. Afterward, he was able to appear as a Force ghost

Skywalker had a significant talent for tactics, leading him to teach the discipline to his fellow Jedi. He believed that a mastery of the skills of warfare made the Jedi better suited to keep the galaxy peaceful. Focused on serving and protecting others instead of himself, he was willing to, and ultimately did, give his life to save another.
