Altitude Range: Ground level-500m

Cost: 1,500 (used)

Maneuverability: 1D

Move: 70; 200kmh

Body Strength: 2D

Weapons:

Description: A popular vehicle throughout the galaxy, these Hover Scooters are more frequently used vehicles than Speeder Bikes, and this model is representative of models available for rent from speeder hire agencies galaxy wide. The Shazam is small, cheap and fairly fast, making it an ideal vehicle for average citizens everywhere, and its high altitude range makes it useful in highly built up areas as well. The Shazam is typical of Hover Scooters, in that it needs a lot more maintenance than a speeder bike, but will usually be used in far less harsh environments than a speeder bike, making it about as reliable.
