Description: Pyre was a human male who served in the First Order as a stormtrooper commander during the era of the New Republic.

Pyre was a human male who served as a commander in the forces of the First Order during the cold war. He and Major Elrik Vonreg proposed to Captain Phasma that the First Order should collaborate with pirates, leading them to a partnership with Kragan Gorr and his pirate gang. The idea was that Kragan and his pirates would attack the Colossus enough so that Captain Imanuel Doza would cede control of the vital fueling station to the First Order. After a failed attack by the pirates, Kragan reported to Phasma and Vonreg, where Phasma stated her disappointment to Kragan and that she was skeptical from the beginning of Pyre and Vonreg's idea.

Later, Pyre was sent to the Colossus along with several stormtroopers in search of two young fugitives, Kel and Eila, who had escaped the destruction of their village on the planet Tehar.

Equipment

Pyre wore gold-plated stormtrooper armor and a black pauldron, and utilized a gold-plated F-11D blaster rifle.
