Charcter Bio - CC-3388/0021, also known as Levet, was a clone commander stationed on Qiilura under General Etain Tur-Mukan in 21 BBY. He commanded the 35th Infantry there while General Tur-Mukan attempted to negotiate with the Human colonists to leave, as the Republic was being blackmailed by the native Gurlanins into leaving them in peace on the planet.

When most of the Human colonists refused, Levet was forced to use the full capability of the 35th Infantry upon the colonists. The colonists were forced to be evacuated at gunpoint, with many casualties on both sides.

With the task completed, Levet and the 35th infantry moved on to nearby Gaftikar to assist Omega Squad, Null-12 and the local Marits with capturing the capital city, Eyat.

After Order 66, he deserted the GAR in favor of joining Kal Skirata on Mandalore; telling Kal that he 'was not proud of himself, but something snapped'. When Kal told Levet that it's time to do what he (Levet) wanted, Levet told him that he wanted a farm. While on Mandalore, Levet got his farm;

though he had trouble learning how to farm at first with only an instructive video to show him how. Located a short distance from Kyrimorut, he and the men of Yayax Squad worked to supply the rest of Clan Skirata with food and supplies.

Levet had the nickname of Commander Tactful among the troops. He certainly knew enough Mando'a to inform Ordo that he knew of Etain's pregnancy without informing a nearby medical droid. He wore yellow and white armor like any commander's would in Phase I clone trooper armor.
