Charcter Bio - Darth Thanaton, born Teneb Kel, was a Human male and Dark Lord of the Sith who fought in the Great Galactic War. As an apprentice, he learned the ways of the Sith under Lord Calypho and was frequently accompanied by a male Abyssin slave named Maggot. After the arrest of Lord Calypho, Kel was sent on a dangerous mission by the Dark Council to hunt down the Emperor's traitorous apprentice, Exal Kressh. After the success of his mission, Kel returned to the Dark Council and demanded that he be granted the title of Dark Lord of the Sith and be renamed Darth Thanaton. The Dark Council granted his wish. Later, he became a member of the Council - an honor he held for almost four decades until he was defeated by his powerful rival, Lord Kallig, on the floor of the Council chambers on Korriban.

Teneb Kel was a loyal servant of the Sith Empire and prideful of his Sith status, as shown with his open disgust for the miners who he felt had desecrated the Sith world Begeren with their quarry. He was very knowledgeable of Sith history, and the politics of the Empire. He despised those who were rich or greedy, and even more so if they tried to make a profit off the Empire. He was very loyal to the Sith; when he was arrested for the crimes of Calypho, even though he felt tempted to resist, Kel surrendered himself without defiance. Yet he did have a softer side, displayed when he congratulated and protected his slave, Maggot, from his fellow Sith, even whispering a pained apology when he felt it necessary to kill the faithful Abyssin. The only relationship he ever had, other than his friendship with Maggot, was with his master, Calypho, who he fought without hesitation when ordered to.

When Kel became Darth Thanaton, he took it upon himself to keep lower Sith in their place, Darth Zash in particular. He was a strong traditionalist and anyone who disregarded tradition was beneath his contempt, deserving only of death. Mostly, he relies on his servants and allies to perform his tasks for him, only desiring to take direct action as a last resort.

Thanaton used "tradition" as a way to hold onto his power but was in fact afraid of powerful upstarts. He set out to destroy Darth Zash's powerbase which included Kallig. He continued to argue about tradition to the Council as he tried to avoid facing a superior opponent.
