Description: TK-3338 was the designation of a stormtrooper who served the Galactic Empire as part of the 501st Legion. They were part of the forces that boarded the rebel corvette Tantive IV in 0 BBY in search of the Death Star plans that had been stolen by the rebels. TK-3338 was ordered to search the starship for passengers with Stormtrooper Commander TK-9091 and fellow troopers TK-4601 and TK-4247. When the four discovered Princess Leia Organa on board, she killed TK-9091 before being stunned. TK-3338 and TK-4601 were then part of the escort that brought Organa before their commanding officer, Darth Vader.
