Description: Uyohn was a male engineer who served in the Galactic Republic's Futures Program

on Brentaal before being hand picked by Director Orson Krennic to join Galen Erso's kyber crystal research team. In 0 BBY, Krennic traveled to the Eadu Energy Conversion Laboratory on Eadu where the team were based after learning of Erso's betrayal. After the team had lined up in front of him, Krennic noted that Uyohn stood straight-backed expressing emotions between fear and deluded, desperate hope.

Equipment
While on Eadu, Uyohn wore a blue-and-white engineering jumpsuit.
