Story Factors:

Xenophobic Religion: Although most Nazzar encountered offworld have overcome this, most Nazzar believe that other species taint Nazzar Culture and Society, and they will accept but be somewhat hostile to other species. The religion also teaches that the group is better than the individual, leading Nazzar to reject individuality and join groups, gangs and companies rather than going it alone.

Description: Qohn was a male Nazzar who in 3963 BBY was a slave to the Sungrazer cooperative, an organization that used slaves for deadly risky comet mining. Qohn managed to survive five dives, which was a record as none have survived more. When Zayne Carrick and Jarael tried to free the slaves from the Sungrazer, Qohn was among them, but was caught by a Skyreaper drone from the Gladiator.
