Caedes Consortium M-6 Power Armour

The Caedes Consortium is a group of alligned worlds inhabited by Humans and Near-Humans. The Consortium has a doctorine

based on the Superirority of Humans and Near-Humans to all others. they also have developed within the organization, a

sense of ultra-nationalism. They are found near the fringe of the unknown Regions. Discovered about a year before the

battle of Hoth, the Empire stummbled across the Caedes Consortium ruthlessly conquering the systems around it in the name

of Human superiority. The Emperor decided that the consortium and the empire had a lot in common and that their interests

lay along similair paths. Palpatine and his advisors believed that they could convince the Consortium to join the empire

for mututal benefit. Vice-Admiral Thrawn was the only one who was willing to stand up to the emperor and tell him that it

was a bad idea. Palaptine and him reprimanded and sent a small taskforce in to establish contact with the consortium. When

the taskforce entered Consortium space they were immediately met by Consortium ships and hailed. They were told that they

were in violation of Consortium interstellar law and they had to leave. The commander insisted that he must be allowed to

speak with the Consortium's leaders. After the imperials refused to leave the system, the consortium attacked the

taskforce and oblitterated it completely. The Consortium then repeatedly repeled Imperial invasion attempts with an

alarming ease. Finaly, a war with another super power in the Unknown Regions, the Thrasin, loomed iminantly. The

consortium went on the offensive and caused eevere damage to several Imperial facilities and wiped out multiple system

forces. They used this to force the Empire into signing a cease fire and an agreemnt not to enter consortium space. About

two weeks later the Consortium declared war on the Thrasin. The Thrasin-Consortium War would continue for 20 years after

the Battle of Hoth.

The Caedes Consortium uses a very odd form of military service. Federal Service is not required and there is no draft.

However any who do not serve a term of two years, are not considered full citizens and thus do not get all the rights

those who have gone through Federal service, do. These two castes of people are refered to as Civilains and Citizens.

Citizens may vote, own and run buisnesses, be involved in politics, and run for political office among other things. This

puts social rpessure on epople to eprform some sort of Federal Service. Navy and Army are popular chocies because, if you

don't join a dvision of one of those two, chances were you'd be used for 'equipment testing'. The Army's main force comes

from the MI, or Mobile Infantry. There are two reasons they are called 'Mobile'. The first is that they are carried on

space troop transports and launched from special tubes. The second is the powered armour they use. This armour comes in

three variants, M-6 Scout Armour, M-7 Marauder Armour, and M-8 Command Armour.

The M-6 Scout Armour is a lgiht fast version of the M series power armour. It carries oly the flamethrower for internal

armament. It has all the same wide range of features as the Marauder and Command armours such as polarized macroplate, jump

jets etcetera. However it's jump jets and hydraulic system are revamped to allow it to move twice as fast as the Marauder

Armour. It also has higher quality sensors equipment to aid in the role of scout. Other than more advanced sensor

equipment, the M-^ Armour is basicly stripped down M-8 Command Armour.
