Description: Quiggold was a male Gabdorin pirate from Gabdor and the first mate of Captain Sidon Ithano's crew in the Outer Rim in the decades after the Galactic Civil War. Assisting Ithano in the hunt for a possible lost shipment of kyber crystals meant for Count Dooku, Quiggold and the rest of the crew ended up finding a clone trooper frozen in stasis named Kix and locations to long-forgotten former Separatist bases.

He would also accompany Captain Ithano on a visit to Takodana Castle 30 years after the Battle of Endor where a fugitive First Order defector named Finn offered to join their crew in exchange for safe passage into the Outer Rim, away from the First Order's reach.

He wore a simple brown hood and had a peg-leg fashioned from a fuel funnel and carried a set of prayer beads fashioned from hyperdrive plotter pins.
