Description: The Yasabur? family heirloom lightsaber was a lightsaber owned by the Yasabur? clan on the Outer Rim planet Tao. Originally owned by a Jedi Knight who came to Tao, the Jedi entrusted the saber to an ancestor of the Yasabur? clan and trained him in lightsaber combat. Thereafter, the lightsaber became an heirloom passed down through the generations of the Yasabur? family, with each head of family teaching their successor how to wield a lightsaber and eventually bequeathing it as inheritance.
