

Equipment D20 / Vetricon RPG

Vetricon RPG

Vetricon's multi-use rocket launcher. It fires a small rocket propelled grenade round capable of decimating most armoured vehicles in use on the field today. It is a narrow firing assembly with the rocket round attached to the front end. It is very simple and easy to use and incredibly lightweight. Its simple design makes it easy to maintain and it is very durable. It is a weapon that could be left in a jungle for months and would still work next time it's picked up.
