Description: A therii was a large herding creature that could be found on the planet Batuu. Elee was a therii that was the pet of Black Spire Outpost resident Salju.

Biology and appearance
Therii had floppy ears and two tusks. Their hoofs had two toes and their coats were soft reddish-brown fur. They were herbivores that mainly ate leaves and stems.

Behavior
The species used their ears as a means of expression. They flapped them to show contempt.
