

Weapons D6 / Vetricon Anti-infantry mine

Vetricon Anti-infantry mine

The END-2 as the first 'claymore' mine produced officialy by Vetricon Enterprises.

It is a composite cermaic mine with a small explsoive charge at the center of a huge mass of deadly shrapnel. The explosive charge incldues a small EMP charge as well as standard explsoive. The shrapnel is sent flying in all directions at high velocity with a slight electro-magnetic charge. These mines will quickly shred squads of men unfortunate enough to be cuaght in the blast radius.
