

Weapons D6 / Mestic Munitions Punisher

Punisher 10mm

Mestic Munitions' Punisher model handgun was originally developed by custom order for several hitmen in various local crime syndicates. After a few years of street use, the orders for new Punishers increased dramatically until Mestic finally put the design into mass production and placed it on the open market, lowering the price from 700 credits down to 500 credits in the process. The new Punishers come standard with a removable silencer, one of the main traits that made it popular in the first place.
