

Weapons D6 / Minbari Fighting Staff

Retractable Force Pike

Minbari fighting sticks are retractable force pikes that are capable of inflicting the same damage as the standard force pike. It retracts into a tube roughly 8.5 centimeters long and 3.5 centimeters in diameter. With a press of the thumb activated button, the force pike extends to its full length. While not looking exactly like the standard force pike often used by the Imperial Royal Guard, it functions basically the same as one. However, one must be careful not to aim either end of the force pike at himself while extending, noting that the force of the extending pike could most likely impale the user with ease (5D damage).
