

Weapons D6 / Advanced Hornbow

Advanced Hornbow

The Advanced Hornbow was a bow designed only on certain planets long after Bows were out of date, or at least after they were out of date in the rest of the galaxy. Using more advanced technology, the old Hornbow design was taken and made from stronger materials for shaft and string. Small advanced servomotors fit at the top and bottom of the string adding power to the blow. These bows are harder to find but it's worth it if you find one.
