

# Starships D6 / Gwirekon Pirates Metroid

## Gwirekon Pirates Metroid Assault Shuttle

The Metroid Assault Shuttle is the Gwirekon Pirate Gang's main boarding craft. They will land in a disabled ships' hangar or burn their way through a hatch to minimize damage when they can but if they only care about the cargo they will force their entry through anywhere they can onto the ship. The shuttle carries one full platoon of Gwirekon boarding marines which will enter the ship through the laser torched entryway and spread out through the ship quickly and efficiently. The Metroid is arguably the most maneuverable ship about but it packs a good punch to compensate for this and is a very rugged ship.

Note: The plasma torch boarding device is mounted on the ship's airlock system. The controls are just inside the main airlock. Roll the target ship's hull -2D; if the torch scores a lightly damaged result, it has breached the hull. Once the hull is breached, the torch requires a full minute to cut a one-meter-wide by one-meter-high hole. The extendable boarding tube attaches to the hull and forms an air-tight seal in 30 seconds.
