All Terrain Riot Control Walker

The Neo-Y9 RCW was an ingenious design concept that Elvar Neral made in conjunction with his brother Atiger, his crush Larna Gultross, and friend Hiro Teshobi. The walker is rather tall and modular in design. It holds six people, two pilots and four gunners. It has a blaster cannon to deal with serious threats then stokhli spray cannons and tear gas launchers to deal with riots. The vehicle is very popular among many peacekeeping forces but is quite expensive.
