Description: GTF Erinyes craft are fresh off the drawing boards of Triton Dynamics. Though fast and heavily armored, their main attraction is firepower. With eight primary banks and two secondary weapon bays, Erinyes are at the top of the combat craft food chain. Both sets of weapon banks have been

designed to maximize compatibility with the greatest possible number of weapon system. Erinyes-class ships are being evenly distributed through the GTVA fleet, but only elite pilots are currently authorized to fly them.
