

Characters D20 / Floridians (Near Human)

Floridians

The term Floridian is the name given to natives of the planet Florida, a well known vacation world in the Core. The natives are the descendants of the original human colonizers, who were a strange group to begin with.

Floridians have an extremely large obsession with sex. While not very well endowed in their reproductive organs, Floridians are still one of the most sexually active peoples in the galaxy. Many aged couples from around the galaxy travel to Florida to try to get the spark back in their romantic lives. The locals are eager to help out, and with their primary industry of vegetable farming, they have all the tools necessary for hours upon hours of pleasure.
