Weapons:

4 Medium Blasters

Fire Arc: 1 Front, 1 back, 1 left, 1 right

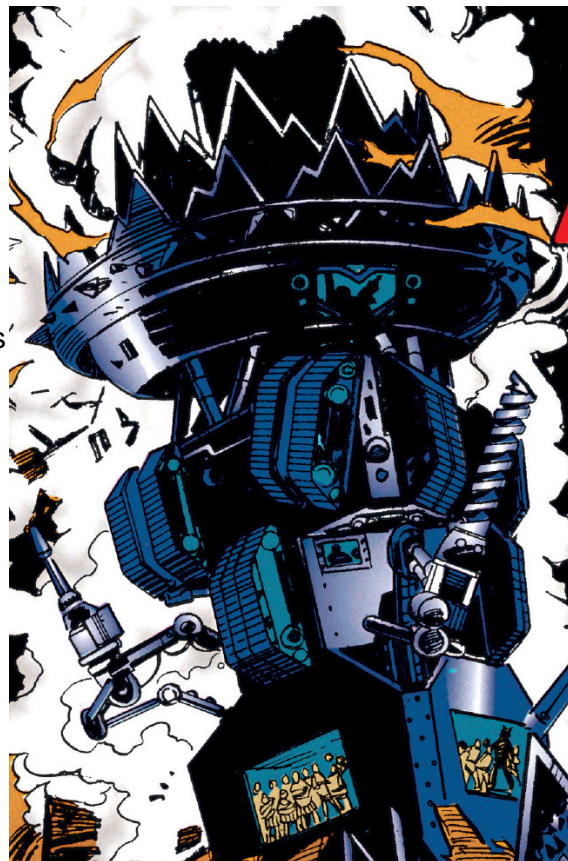

Crew: 1

Skill: Vehicle blasters

Fire Control: 2D

Range: 25-50/120/200 meters

Damage: 3D

Description: Groundborers were large machines used for creating tunnels manufactured by Akin-Dower. They were used to provide a quick shelter on dangerous worlds. A group of wealthy Naddists purchased several for use in the Freedom Nadd Uprising, where Warb Null attacked the city of Iziz on Onderon using modified versions of the Akin-Dower groundborers. After this attack, they were known as Onderonian War Machines.
