

Corellian CC-9600 Frigate

The CC-9600 is the latest iteration of the CC series of capital ships. It is

more compact and requires a smaller crew than the earlier CC-7700 model. While

the CC-7700 was primarily a platform for a gravity well projector the CC-9600 is a dedicated combat starship. The firepower and shielding of the CC-9600 are considerable, while increasing cargo space and allowing room to carry troops on board.
