- Human-range visual sensors
- Body (with manipulator arms, legs, head)
- Vocabulator
- Tight-band comlink

Move: 3

Description: An engineer droid operated a train for the Pyke Syndicate. Between 4 ABY and 9 ABY, the droid operated a train that made its way across the Dune Sea, killing various Tusken Raiders and their Banthas along the way. Boba Fett and a group of Tuskens attacked the train and stopped it during its course, with the droid managing to escape soon before the train was destroyed.
