Description: The Rebel Troop Carrier is an adaptation of the old Juggernaut designs, that preceded the AT-AT walker, and although its systems have been updated it is still a fairly low tech solution to the problem of transporting troops around, but that makes it no less reliable. The Troop Carrier is a powerful combat vehicle in its own right, capable of protecting itself and its payload against smaller walkers, but it should be noted that it is not an attack vehicle, so shouldn't be expected to be able to take on front line combat vehicles such as AT-AT walkers.
