Mestic Spec-8 Auto-Loader

A good comparison of blaster carbines in the slugthrower world is possibly the shotgun. Mestic Munitions' new Spec-8 model offers superior firepower in a compactable package. With a folding stock and fast reload time, the Spec-8 is becoming popular in the underworld where street gang-warfare is common in close quarters such as alleyways and streets. The Spec-8 is faster during reloads than your average shotgun due to an advanced spring-loaded cocking mechanism designed specifically for speed loading.
