Retractable fine work grasper arm

Small electric welder (1D to 5D damage, 0.3 metre range)

Small circular saw (4D damage, 0.3 metre range)

Holographic projector/recorder

Fire extinguisher

Acoustic signaller

Move: 5

Size: 1 metre

Description: R5-2JE was an R5 series astromech droid that operated during the First Order's Resistance war. The droid had red and white plating, and a silver sensor.

Nicknamed "Toojay", R5-2JE leads the droid pool assigned to the Resistance base on Ajan Kloss. Equipped with a modified restraining bolt, the droid serves as a signal-hub for other similarly modified droids, sending commands and orders from a distance.
