

## Mercury

Air Speeder

Craft: Corusmotors Mercury Sports Air Speeder

Type: Air Speeder

Scale: Speeder

Length: 3.1m

Skill: Repulsorlift operation: Air Speeder

Crew: 1

Passengers: 1

Cargo Capacity: 25kg

Cover: 1/2

Altitude Range: Ground level-1km

Cost: 3,900 (used)

Maneuverability: 1D+1

Move: 225; 650kmh \*

Body Strength: 3D

Weapons:

\* - The listed speed is that with the speeders ion afterburners functional, these are fairly fragile, and without regular maintenance will fail. This drops the speeders speed to 150; 430kmh.

Description: The Mercury Sports Air Speeder was a popular speeder before the rise of the Empire, although the altitude range was usually limited on planets which did not have arial traffic lanes. Although not quite as practical as later speeders, the Mercury is now considered a classic, and models which retain their original paint schemes in bright primary colours, and have still functional ion afterburners will fetch a high price on the open market.
