# The Force D6 / Force Speed

Force Speed

Control Difficulty: Moderate

This power may be kept "up."

Effect: A Jedi uses this power to increase his movement speed (i.e. his Move Statistic) for a limited amount of time. This makes them run at a much higher rate with powerful Jedi Capable of becoming faster than some vehicles. This power may be kept up for multiple rounds as long as the Jedi desires. The Enhancement received depends on the level of success in the power activation roll according to the table below.

| | | |
|---|---|---|
| Control Roll beats Target by 0-13 | = | Move Increased by 1D |
| Control Roll beats Target by 14-25 | = | Move Increased by 2D |
| Control Roll beats Target by 26+ | = | Move Increased by 3D |
