  - Range: 3-50/100/200
  - Damage: 4D

Description: The Gian Speeder was popular with planetary defence forces in the final days of the Old Republic, and is a reliable and fast speeder. However as the Empire siezed power the galaxy became a far more dangerous place and the Gian just wasn't armoured or armed well enough for most planetary forces. The majority of these vehicles were sold off into civilian service, and have ended up in the strangest of jobs.
