Description: The Hutt crime organization, having set their sights on uncontested domination of the Galaxy's space smuggling and pilot / mercenary economies, returned to MandalMotors for yet another custom starship. The M12-L is a long-range multi-role starfighter with exceptional weapons capabilities and superb defensive systems. The numerous gun emplacements available aboard the

M12 "Kimogila" allow it to serve as a heavy fighter, while its generous torpedo capabilities allow it to play the role of a 'bomber' in special circumstances. Due to its flexibility, this starfighter is beginning to enjoy a high degree of popularity among the free mercenaries in Dathomir and Endor.
