Description: Kragg is a Massassi who accompanied Priax Silvantra when he left the Sith homeworld to explore the galaxy, although Kragg never really had a choice in the matter as he was a slave. Along with several other Massassi Kragg was altered over the years by Silvantra's Sith sorcery, adding a huge amount of muscle to the already strong creature, and making him a better hunter and killer. Kragg is now completely enslaved to Silvantra's will, and is little more than a grunting beast with no ability to express himself in any way except gutteral roars and repetition of his last instructions. Capable of following fairly complex instructions, he is little more than a trained animal who Salvantra uses as a bodyguard and attack beast, something he is now perfectly suited to.
