Fire Control: 1D

Range: 3-50/100/200

Damage: 5D

Description: A development of the Nightfalcon speeder bike, this provides the speed of a swoop, with the refinements of a speeder bike, this has become a very popular speeder bike in the years since the fall of the Empire. However it has never been bought in bulk by the New Republic or the remnants of the Empire, but remains common within mercenary groups and planetary defence forces.
