Character Bio -

A former student of fellow Council member Yaddle, Oppo Rancisis was a well-respected Jedi Master known for his unerring tactical mind and military expertise. His familial heritage earned him the title of Blood Monarch of Thisspias, though Rancisis denied the position, choosing instead to devote his life to the ways of the Force. His elegant strategies have allowed the Jedi to emerge victorious from several large-scale conflicts.

Rancisis was a master of malacia, a Jedi technique that produced powerful dizziness and nausea in his targets. The results are incapacitating, though do not do any permenant physical damage. Rancisis trained fellow Jedi in this art, but few mastered it to his level of proficiency.

Rancisis was 174 standard years old during the Battle of Naboo, an incredibly ancient age for a Thisspiasian. Among his exploits was serving as a fleet battle strategist during the bloody Stark Hyperspace Wars.

The shaggy-haired serpentine Jedi Master Oppo Rancisis sat on the Jedi Council during the waning years of that august order. He was present when maverick Jedi Master Qui-Gon Jinn brought young Anakin Skywalker before the Council to be trained as a Padawan.
