Vehicles D6 / Mandalorian "Raider" Class Gra

Mandalorian Raider Grav Tank
Craft: Mandalorian "Raider" Class Gravity Tank
Type: Speeder
Scale: Walker
Length: 4.3m
Skill: Repulsorlift operation: Repulsor Tank
Crew: 1+1Gunner
Passengers: 1
Cargo Capacity: 100kg
Cover: Full
Altitude Range: Ground level-1km
Maneuverability: 2D+2
Move: 105; 300kmh
Body Strength: 5D
Cloaking Device: ???
Weapons:

- Heavy TurboLaser Cannon
  - Fire Arc: Front
  - Scale: Walker
  - Skill: Vehicle Blasters
  - Fire Control: 4D
  - Range: 50-500/1.5/3km
  - Damage: 8D

Description: The Raider Grav Tank is a new vehicle and has only been brought into service since the war against the Galactic Empire/ Sith Empire alliance began. With a top speed equal to that of many Land Speeders, and an altitude range matching many Air Speeders, the Raider allows Mandalorian troops a flexibility that using walkers hadn't allowed them before. There are rumours that this tank was supposed to be capable of cloaking undetectably in an atmosphere, but there seems to be no sign of that capability in the Raiders currently in service, however an upgrade known as the Manta Gravity Tank, is known to be in development, and this tank may have this cloaking technology. The Raider is limited by its single weapon, and has difficulty taking on targets smaller than walkers, however the sheer power of this weapon makes this limitation somewhat easy to ignore when you see this vehicle in combat.
