  - Scale: Speeder
  - Skill: Vehicle Blasters
  - Fire Control: 1D+1
  - Range: 50-300/1/2km
  - Damage: 5D

Description: The Republics Hammer Gravity tank is the ancestor of the Imperial Repulsor Tanks and was first brought into operation during the Clone Wars. Although now showing its age, the Hammer is powerful vehicle, and although it was never a match for a AT-TE its greater speed allowed it to be used for tactical advantage. Although most Republic Hammers were destroyed either in combat or for scrap, a number have found their way into the hands of planetary defence forces, and even criminal organisations.
