

Name: YT-

1900 Transport

Type: Corellian Engineering Corporation YT-

1900 Space Transport

Scale: Starfighter

Length: 26.2m

Skill: Space Transports - YT-1900

Crew: 1 (Gunners:1)

Crew Skill: varies

Passengers: 8

Consumables: 3 Months

Cargo Capacity: 120 Tonnes

Cost: 110,000 (new); 27,000 (used)

Hyperdrive Multiplier: X2

Hyperdrive Backup: X12

Nav Computer: Yes

Space: 6

Atmosphere: 700;1200kmh

Maneuverability: 2D

Hull: 4D

Shields: 2D

Sensors:

Passive: 15/0D

Scan: 30/1D

Search: 50/2D

Focus: 2/3D

Weapons:

Laser Cannon

Fire Arc: Turret

Skill: Starship Gunnery

Fire Control: 2D

Space Range: 1-3/15/25

Atmosphere Range: 100-300/1.5/2.5km

Damage: 4D

Description: The YT-1900 is a later model from CEC, and is heavily based on the hugely successful YT-1300, with an off-center cockpit, cargo loading arms, and many other features familiar to those who have flown the YT-1300. Slightly bulkier, but with more powerful engines, the YT-1900 can carry larger cargoes, which are loaded through a forward mounted cargo hatch, leaving the lower ramps free for use by crew and passengers. However should the front hatch not be available, or useable, then the lower

ramps can still be used as in other older designs. While opinions have been mainly positive about the YT-1900, the only major complaint has been about the turrets placement, since its field of fire is somewhat blocked by the large engine housings that run along the top of the vessel, but as with all turret placements the fire of fire always depends on good interaction between the pilot and gunner. As with previous YT series ships, the turret can be locked into a forwards firing position, and fired by the pilot if he is flying the ship solo. The YT-1900 has sold in good numbers and looks to be as big a success as the other YT freighters.
