Starships D6 / Loronar Corporation Inter

Name:

Intersterce Jump Craft

Type: Loronar Corporation Intersterce Jump

Craft

Scale: Starfighter

Length: 8m

Skill: Space Transports - Intersterce

Crew: 1

Crew Skill: varies Passengers: 1

Consumables: 1 Day
Cost: 21,000 (used)
Cargo Capacity: 150Kg
Hyperdrive Multiplier: X5

Hyperdrive Backup:

Nav Computer: Can store 2 Jumps

Space: 6

Atmosphere: 500;900kmh

Maneuverability: 2D

Hull: 3D Shields: 1D Sensors:

> Passive: 20/0D+2 Scan: 40/1D+1 Search: 80/2D+2 Focus: 2/3D+1

Weapons:

Twin Laser Cannons

Fire Arc: Front

Skill: Starship Gunnery

Fire Control: 2D

Space Range: 1-3/12/25

Atmosphere Range: 100-300/1.2/2.5km

Damage: 5D

Description: The Intersterce Jump Ship is a small vessel for intra system travel, and with fairly fast ion engines, and a small hyperdrive it is ideal for this task. The hyperdrive is too weak, and its life support too short for travel between star systems, but as a short range two man transport the Intersterce is perfect. Originally built for those who could afford not to use public transport, but didn't want to pay for a true starship, this jump craft is well appointed and comfortable inside. However the Intersterce has also found

use as an inspection craft and even limited use as a starfighter, its low price making it suitable for engineers and designers to examine their latest orbital project, and its twin laser cannons packing quite a punch for such small weapons. The Intersterce sold reasonably but not spectacularly well, and its production was ended several years ago in favour of more heavily armed starfighters and more expensive yaghts.

Page designed in Notepad, logo's done on Personal Paint on the Amiga.
