Description: Although classified and marketed as a Personal Yaght, the Luxury 200 bears more resemblance to a small starliner with large communal areas for watching the stars and relaxing as well as generously appointed cabins for a large passenger complement. Capable of sublight speeds matching many military vessels, and equipped with a large cargo hold for passenger vehicles and luxuries, the Luxury 200 is designed for the extremely rich although some have been sold to a few exclusive passenger lines for well to do passengers. The Luxury 200 has plenty of scope for adaptation, with many having weapons added to protect their passengers and cargoes, and a small number being adapted into elite smuggling and pirate vessels, although the cost obviously limits the numbers of these vessels converted in such a manner.
