## **Special Abilities:**

Strengthened Body: The R1's shell gives it +2D to STR when resisting damage.

Story Factors:

Outdated: The R1 is fairly old, yet is available throughout the galaxy second-hand - few brand new ones are available. They are often modified, and are commonly mistaken for Mark II reactor drones.

Size: 2 metres Cost: 3,000 (used)

Capsule: R1s are large astromech droids designed for use in capital warships or large space transports. They use the body shell of the Mark II reactor droid, and are armoured to withstand radiation. The droids are not very mobile. These droids talk in beeps and whistles, and if given time to develop a personality can become quite recalcitrant.
