## Camera Droid

Built for new corporations originally the camera droids became widespread in their use for all sorts of things. Wealthy people use them to record their vacations rather than tape it themselves, sports events, traffic reports, ect all use these droids. It is not unusual to see the camera droids whipping around scenes of a crime, or accident, or some major event. There are many camera droids out there, but the Temere Corp one is known throughout the galaxy as the smartest and easiest to use.
