

Temere Corporation Gattaca Class Androids

Temere Corporation's Gattaca Class Androids are based off the old Human Replica Droid concept. Sensor fooling bio-circuitry makes them scan up as humans, while their exterior looks and feels just like any human. Advanced cybernetics and computer processing incorporated with bio-technology has created these droids which appear as humans with incredible speed, agility, and strength. The secretive Temere Corporation's intentions for the androids is as yet unknown but something sinister is suspected.
